Detroit, Michigan 48226

*duplicate  
letter*

Dear Mr. Long,

I would like to be on the list to receive notice of any public documents, comment periods or public meetings pertaining to the Great Lakes System Navigational Improvements Study. We are property owners on the St. Lawrence River and the future of the St. Lawrence is very important to me and my family. The impact of any blasting or dredging in the River would be devastating to the very delicate ecology of the River. The entire economy of the area would be ~~ever~~ changed for the worse. Much of the area along the river is rural and depressed, many people's livelihood would be affected by changing the balance.

Thank you.

Sincerely,

*Judy Munro / Bill Munro*  
Judy and Bill Munro
